

Instructions for setting up Internet Explorer 5.5

These setup instructions will help you set up Internet Explorer 5.5 and Outlook Express 5.5.

Begin by closing all programs. Then click on "Start," "Settings," and "Control Panel." Now double-click on "Internet Options".

Change the Home page Address to "http://www.cloudnet.com."

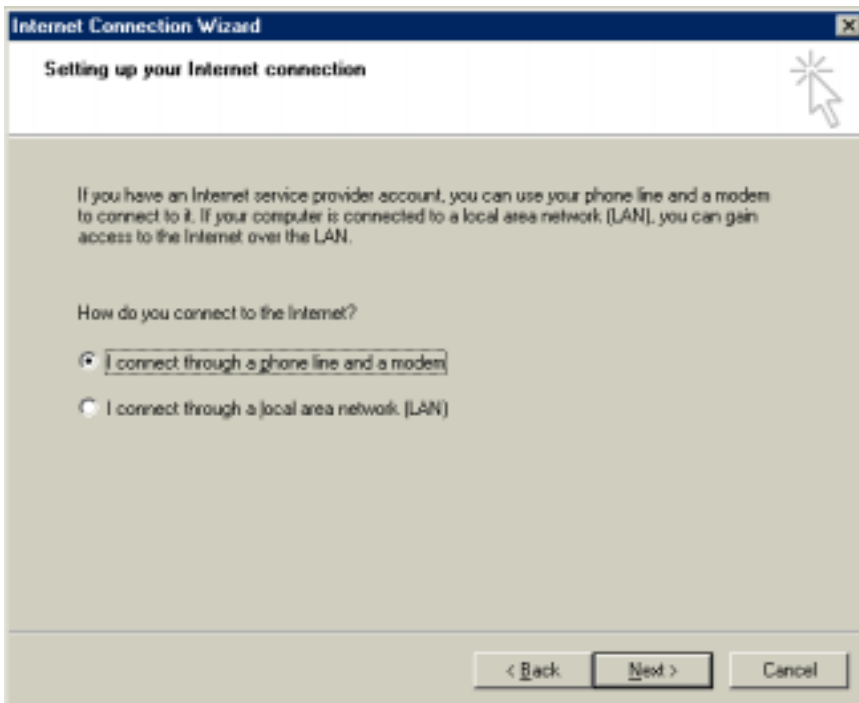

Next, click on the "Connections" tab, then the "Setup" button.

Select "I want to set up my Internet connection manually, or I want to connect through a local area network (LAN)."

Then click "Next."

Select "I connect through a phone line and a modem."

Then click "Next."

The screenshot shows the 'Internet Connection Wizard' window at 'Step 1 of 3: Internet account connection information'. The window title bar includes a close button (X). The main area contains the instruction: 'Type the phone number you dial to connect to your ISP.' Below this, there are two input fields: 'Area code:' (empty) and 'Telephone number:' (containing '2571040'). A 'Country/region name and code:' dropdown menu is set to 'United States of America (1)'. A checkbox labeled 'Dial using the area code and country code' is unchecked. At the bottom left, there is a note: 'To configure connection properties, click Advanced. (Most ISPs do not require advanced settings.)' and an 'Advanced...' button. At the bottom right, there are three buttons: '< Back', 'Next >', and 'Cancel'.

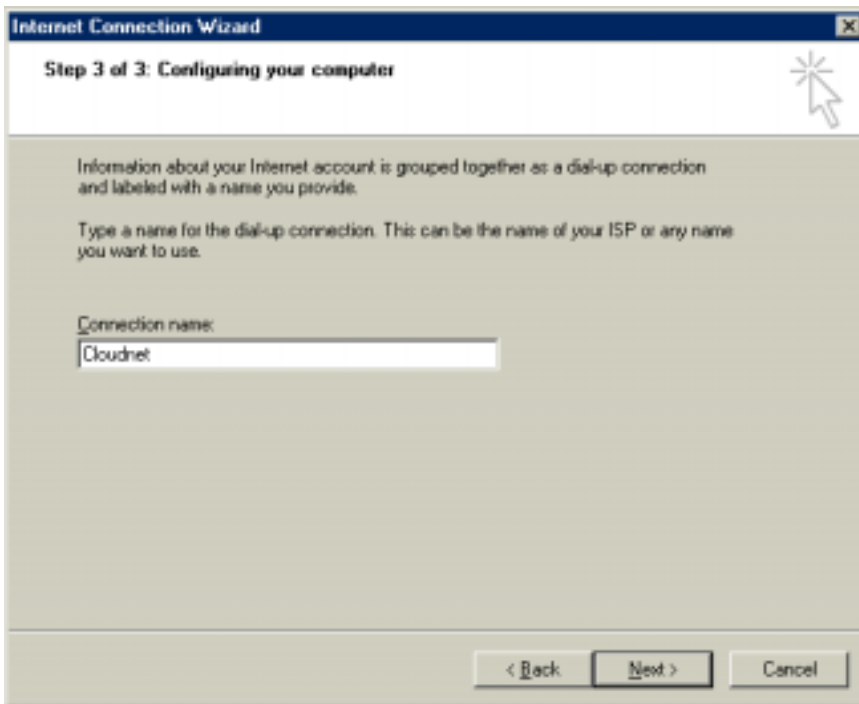

Uncheck "Dial using area code and country code." Enter 2571040 in the "Telephone number" field.

Then click "Next."

The screenshot shows the 'Internet Connection Wizard' window at 'Step 2 of 3: Internet account logon information'. The window title bar includes a close button (X). The main area contains the instruction: 'Type the user name and password you use to log on to your ISP. Your user name may also be referred to as your Member ID or User ID. If you do not know this information, contact your ISP.' Below this, there are two input fields: 'User name:' (empty) and 'Password:' (empty). At the bottom right, there are three buttons: '< Back', 'Next >', and 'Cancel'.

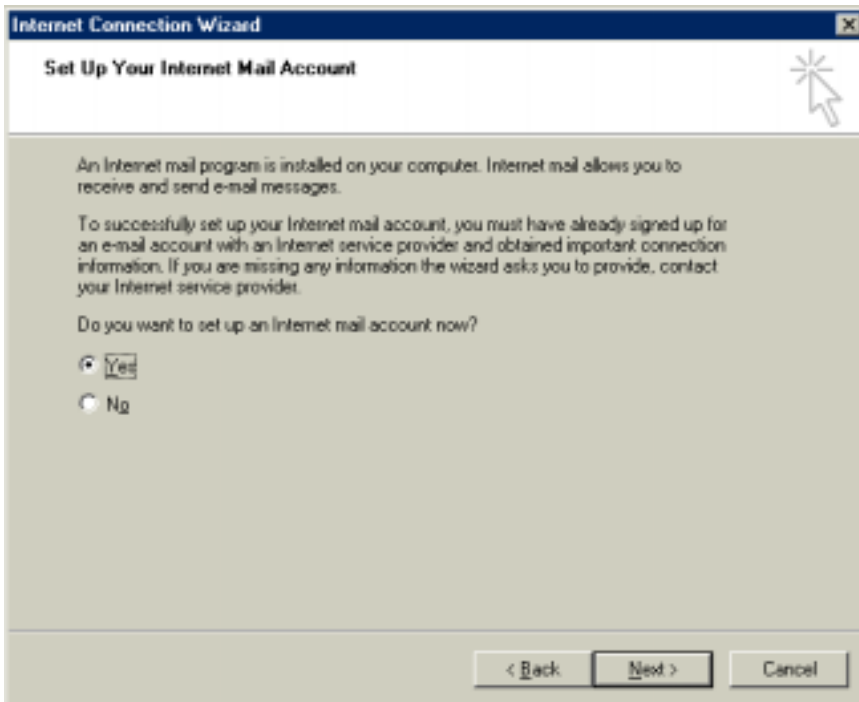

Enter your Cloudnet user name and password. You will find these on the Cloudnet Connection Information sheet.

Now click "Next."

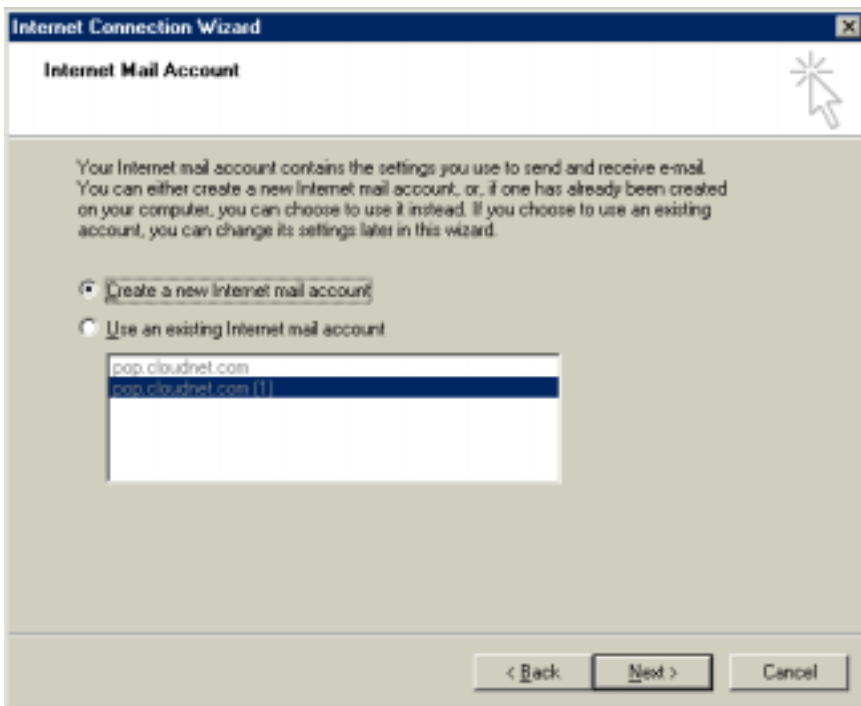

Change the "Connection Name" to read Cloudnet.

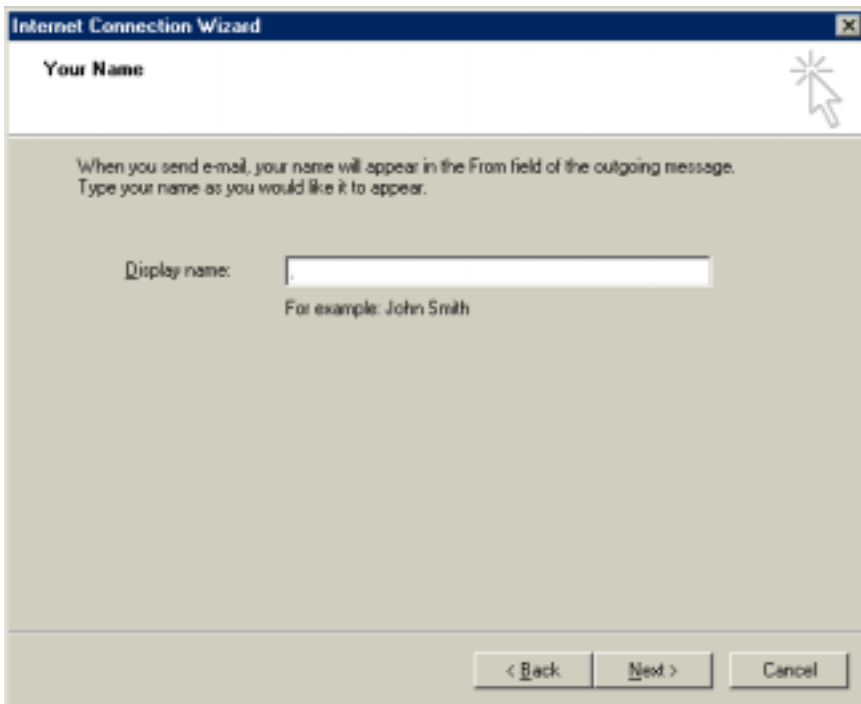

Then click "Next."

Click "Yes," and then click "Next."

The Internet Mail Account window may not appear the first time you run the Connection Wizard. If you do see that screen, select "Create a new Internet mail account." Click "Next."

Your display name will appear in the "From" field of mail you send, along with your email address. You can use your real name, a nickname, company name, or any other name you choose. You must enter a name to continue. Click "Next."

The screenshot shows a window titled "Internet Connection Wizard" with a close button in the top right corner. The main heading is "Internet E-mail Address". Below the heading is a mouse cursor icon. The text reads: "Your e-mail address is the address other people use to send e-mail messages to you." There is a label "E-mail address:" followed by a text input field. Below the input field is the example text "For example: someone@microsoft.com". At the bottom of the window are three buttons: "< Back", "Next >", and "Cancel".

Now enter you Cloudnet email address. You will be able to find this on the Cloudnet Connection Information sheet. After this is entered, click "Next."

The screenshot shows a window titled "Internet Connection Wizard" with a close button in the top right corner. The main heading is "E-mail Server Names". Below the heading is a mouse cursor icon. The text reads: "My incoming mail server is a POP3 server." There is a dropdown menu showing "POP3". Below this is a label "Incoming mail (POP3, IMAP or HTTP) server:" followed by a text input field containing "pop.cloudnet.com". Below that is a label "An SMTP server is the server that is used for your outgoing e-mail." followed by a label "Outgoing mail (SMTP) server:" and a text input field containing "smtp.cloudnet.com". At the bottom of the window are three buttons: "< Back", "Next >", and "Cancel".

Enter the server information as it appears on the Cloudnet Connection Information sheet. This information will specify your incoming and outgoing mail servers. When finished, click "Next."

Enter your Account name, which is your Cloudnet user name, along with your password.

Leave the "Log on using Secure Password Authentication [SPA]" unchecked. Click "Next."

Uncheck the box for "To connect to the Internet immediately, select this box and then click Finish." Click "Finish."

When you wish to connect to the Internet, double click on the Internet Explorer Icon. If you have any problems with these instructions, please give us a call at (320) 240-8243. Please be at your computer when you call so that we can go through your settings with you. You do not need to be connected to the Internet to check the Internet Explorer or Outlook Express settings)

Save these instructions in case you ever need to setup your connection again in the future.
